

FREQUENTLY ASKED QUESTIONS

ASISTM Surveys

Q: “When do I administer the surveys?”

A: Surveys should be administered as soon as possible once participants begin their involvement with a project.

Q: “Some participants have already started the project, but students are not due to begin their participation until Term 1 next year. How do I manage the survey process?”

A: The participants who have already started should complete the surveys as soon as possible. Students should be randomly selected after they have started their participation in the project and should complete the pre-project surveys within two weeks of this, even if it is in another year.

Q: “Some of the students are in Year 6 this year and when they finish will be in Year 7. Which surveys should they complete?”

A: They should complete the pre-project surveys for Year 5 - 6 students and the post-project survey for Year 7 – 9 students.

Q: “What if less than 15 students are involved in the ASISTM Project in a particular school?”

A: All the students should participate in the surveys.

Q: “What if a Teacher Associate/teacher/student is involved for less than 3 months?”

A: They should not take part in the surveys.

Q: “What if the Teacher Associates in my project are involved at different times?”

A: They should be issued with logins as they commence involvement with your project (and complete the survey within 2 weeks after their involvement begins).
